Experience

UX / UI / Brand Designer

2016 – Present

Freelance Chicago, IL

Cultivated positive user experience by engaging in open communication from concept to completion through clear timeline development and deadline compliance.

Introduced innovative design concepts to increase brand positioning and appeal to a diverse client base.

Collaborated with user experience researchers and project managers to conduct user testing and validate design concepts.

Created sitemaps, wireframes, visual designs, and prototypes for an array of mobile, web, and digital platforms.

Interaction Designer

2020 – 2021

Designory Chicago, IL

Supported the product design team as a sole interaction designer to collaborate on weekly projects tailored to creating wireframes and interactive prototypes.

Participated in daily creative discussions and critiques and presented projects at the end of each week to showcase my thought process and design decision.

Design Quality Assurance

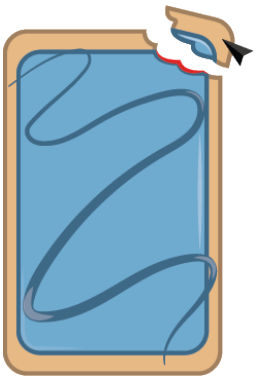

2017 – 2021

Designory Chicago, IL

Performed ~50 weekly quality assurance checks on websites via desktop and mobile devices using Jira tracking technology to identify and resolve UI design and functionality issues.

Collaborated on the launch of 10 health care websites to improve usability and functionality and ensure all brand standards and project guidelines were met.

Partnered with 8 teams of developers project managers and proofreaders across the agency to share design vision and conduct product performance reviews.

Experience -continued

Graphic Designer

2016 – 2017

UIC Early Outreach Program *Chicago, IL*

Created innovative original graphics using Adobe Photoshop and Illustrator.

Designed print advertising packages and digital newsletters for seasonal events to correspond with marketing initiatives and boost brand visibility.

Collaborated with executives to conceptualize brand messaging, marketing images, and style concepts.

Delivered exclusive and appealing pieces through open communication, proof review, error correction, and deadline compliance.

Volunteer Projects

Website Redesign - Black Girls Do Engineer

2021

Redesigning a website for an organization that mentors and teaches young females of color.

Website Audit - Safos Dance Theatre

2021

Conducted a website audit and provided in depth documentation of findings and recommendations.
